PUPPY BEST START PACK £45

Includes a full vaccination course against parvovirus, distemper, hepatitis and leptospirosis with at least 2 full veterinary examinations. This will be a course of 2 or 3 injections depending on the age of your puppy when you first bring him or her to the surgery (earliest starting age is 6 weeks).

Your pup will also receive an initial worm tablet to eliminate any possible tapeworms PLUS a spot on treatment for fleas, roundworms, mites and lungworm infestation PLUS 4 weeks free insurance with petplan.

This package is only £45 which is a real bargain to get you and your pup off to a good healthy start.

These packages only apply to puppies under 6 months of age. Exact items may vary according to availability. Any items not used will not be refunded and no cash alternatives can be offered. Each pack covers only 1 puppy.
